

About CCST Certification

From the

ICA Council on Applied Chiropractic Sciences

The C.C.S.T. Certification provides highly respected documentation of your enhanced clinical skill level, and your commitment to excellence as an authority in providing chiropractic care to spinal trauma patients. This important certification credential is awarded by the Council on Applied Chiropractic Sciences upon completion of the specified seminar course-work, examinations, and other requirements for the Chiropractic Certification in Spinal Trauma C.C.S.T. designation. The Council is proud to have served as the credentialing agency for the C.C.S.T. program since its launch by Dr. Dan Murphy around two decades ago!

The C.C.S.T. Program series has been developed to provide state-of-the-art information regarding the best possible care in management of trauma-induced pain syndromes, and to increase your expertise and clinical outcomes through more thorough, confident case management and communications. The C.C.S.T. Program sessions also supply valuable tools that you can implement immediately and help you to support, document and demonstrate the reasons trauma patients require and benefit from chiropractic care.

The ICA Council on Applied Chiropractic Sciences serves as the credentialing body that issues your C.C.S.T. certification, maintains your qualifications records on file, and publishes the certification listing in the ICA Science Councils Referral Directory. To join, visit the Council on Applied Chiropractic Sciences website at <http://www.chiropractic.org/councils/cacs/CACS.htm> or call ICA at (800) 423-4590 or (703) 528-5000 and start or renew your Council membership!

PLEASE NOTE:

Membership in the Applied Sciences Council is a requisite for completing the C.C.S.T. certification requirements.* The Council membership fee is the only fee involved in the records processing services; you do not need to provide any additional credentialing registration fee!

Your dues payment of \$75.00 not only provides full membership benefits with the ICA Council on Applied Chiropractic Sciences; it includes C.C.S.T. credentials servicing.

C.C.S.T. Credentials Servicing includes:

- **providing you with official documentation including your C.C.S.T. Certificate**
- **four official embossed letters certifying your standing as a C.C.S.T. Doctor**
- **centralized archives of your C.C.S.T. certification credentials**
- **certifying your standing as a C.C.S.T. doctor**
- **maintaining your featured C.C.S.T. listing in ICA's Council Referral Directories**

We look forward to welcoming you to a growing network of practitioners, dedicated to research and clinically relevant developments in the application of chiropractic sciences to patient care, professional education, research, and public awareness!

Additional Information about the Council on Applied Chiropractic Sciences and Certification is posted on the ICA website, www.chiropractic.org, and Council sections.

**(Membership in ICA provides certain registration discounts to Council programs but is not required to obtain or maintain the C.C.S.T. credential. You will find it rewarding to maintain ongoing Council on Applied Chiropractic Sciences membership and through it your C.C.S.T. credentialing, and sustain continuous advantages from the Council's credentialing and referral services and membership benefit programs.)*
