## International Chiropractors Association

### COUNCIL ON APPLIED CHIROPRACTIC SCIENCES

The Council on Applied Chiropractic Sciences (CACS) is dedicated to education and research, professional excellence and clinical communication to promote the advancement of the Philosophy, Science, and Art of Chiropractic and enhance the professional welfare of chiropractors and clinical opportunities for patients everywhere.

Membership in the CACS is open to doctors of chiropractic who wish to enhance both their professional and personal growth by participating with a group that shares the commitment to enhance their knowledge of the intricacies and importance of the Vertebral Subluxation Complex. As the public is becoming more aware of the health benefits of chiropractic and as our inter-professional relationships are expanding, it is imperative that DC's, as primary care providers, remain on the cutting edge of clinical developments within the context of the profession's foundation. Membership in the Council brings additional benefits for professional growth, including networking and referral opportunities.

### Goals and Objectives

The Council on Applied Chiropractic Sciences seeks to enhance the growth of knowledge, the refinement of skills and the deepening of understanding within the science of chiropractic for the individual chiropractic practitioner and the profession as a whole. The CACS Council is committed to advance information and professional development to offer knowledgeable, competent and effective chiropractic care to the public.

The ICA Council on Applied Chiropractic Sciences works to fulfill its many goals through a variety of programs. The Council's work includes:

- Promoting continued excellence of patient care in the application of chiropractic science, philosophy, and art as it relates to the reduction, management and/or correction of the Vertebral Subluxation Complex.
- Protecting the health and well being of the individual patient and public with respect to the scientific applications of chiropractic care.

The Council on Applied Chiropractic Sciences is committed to accomplishing these important priorities through establishment and maintenance of credentialing systems, certification programs, and education and research protocols directed toward the advancement of the philosophy, science and art of chiropractic.

### Membership Benefits

- Referral opportunities with regional plus alphabetical listings in the worldwide **ICA Councils Referral Directory**
- Discounted tuition fees for CACS programs, seminars and conferences
- 10% discount on ICA products and publications
- Opportunity to network with like-oriented colleagues
- Periodic news update publications that keep you current and informed
- Ongoing education and support to develop a leadership role in your community to promote wellness among chiropractic patients and build your practice
- Assistance with reference information related to chiropractic care for your chiropractic practice

### Council Programs

#### Diplomate Program

The Diplomate of the ICA Council on Applied Chiropractic Sciences (D.A.C.S.) is a unique credentialed Board Certified program available to doctors of chiropractic that is specifically aimed at VSC. The program involves an intensive 3 year post-graduate program comprising 360 hours and 30 modules.

#### Annual Conference and Educational Opportunities

The Council offers educational programs and Annual Conferences which offer 12-16 hours of continuing education credits. These give special opportunities to sharpen clinical skills and expand the knowledge base as they relate to the Vertebral Subluxation Complex. These meetings provide a valuable forum for the presentation and discussion of specific cases doctors encounter in their practices. Case studies are also strongly encouraged and research of the Vertebral Subluxation Complex is our primary objective.

**For more information on the CACS programs, membership benefits, and upcoming educational programs, visit the ICA website at [www.chiropractic.org](http://www.chiropractic.org), e-mail ([science@chiropractic.org](mailto:science@chiropractic.org)) or call the ICA offices at 1-800-423-4690. You can also contact the CACS officers directly. They would welcome your suggestions and comments.**
