COVID Status for Chiropractors Outside the United States

As of 4/14/2020 12:08:45 PM

The International Chiropractors Association is monitoring the ability of chiropractors (doctors of chiropractic) to see patients during the COVID-19 Global Pandemic. This information is not a formal declaration that a chiropractor may see patients, but rather a reference point, based on routine review government declarations for the following questions, with links to the actual source so you may verify and follow up at the local level.

- Has the Government Issued a COVID-19 Declaration?
- Has the Government Issued a Stay at Home Order or Quarantine?
- Has the Government Published a List of Businesses/Services that May Remain Open if orders to Close have been issued?
- Is there Specific Directions Provided to Chiropractors?

Key:
Yes = Yes both quarantine and Stay at Home are in effect unless otherwise specified.
